License Server Change

Welcome to the License Server Change process.

This application enables you to reallocate your licenses across new and existing servers. Products that may not be currently eligible for this process will be highlighted. If at any time during the process you encounter an error or need assistance, please contact your local sales contact for assistance.

LICENSE SERVER CHANGE STEPS

[Begin License Server Change >>](#)

License Terms: Step 1 of 3

 [Download Software License Agreement](#)

CLICKWRAP SOFTWARE LICENSE AGREEMENT
Version April 15, 2013

By generating a new License Key for the Program(s), Licensee agrees to destroy the previous license key for the program(s) and use the new license key. If the Program(s) is being converted or upgraded, Licensee agrees to (i) uninstall the previous Program(s) from the computer or computers on such Program(s) were installed, (ii) destroy the previous license key for the previous Program(s), and (iii) use the new license key.

EXCEPT AS OTHERWISE AGREED BETWEEN LICENSEE AND LICENSOR IN WRITING, THE TERMS OF THE LICENSE AGREEMENT REFERENCED ABOVE SHALL SOLELY GOVERN LICENSEE'S USE OF THE PROGRAM(S).

Add New Servers: Step 2 of 3 (Optional)

If servers you want to move products to are not listed in the My Servers list below you can add new server information here. Otherwise you can skip this step.

[Skip this step and proceed to relocate products](#)

Please enter new server information carefully and accurately. Once you leave this screen and confirm the details of new servers, you will be unable to modify those servers via this application. If changes are needed later, you will need to contact your local sales contact.

Configure New Server : Single Server Three-Server Redundancy

Hostname

Hostid

ID Type

Borrowable ?

Laptop ?

My Servers - Active and Queued

The list below initially displays your active servers. Queued servers are added in blue to the top of the list.

Queued servers can be deleted or edited while you are on this page. After these servers are saved you will no longer be able to make changes. Click on Confirm Queued Servers to confirm and save your new servers.

Delete server from queue

Edit queued server

| Hostname | Hostid | ID Type | Three-Server Redundancy | Shared Server | Borrowable | Laptop |
|----------|--------|---------|-------------------------|---------------|------------|--------|
